

Advanced Roommate Search Guide

If you do not have a roommate with whom to go through the Housing Assignment Process, you can use MyHousing to search for students who might make a good roommate for you. To do so you must create a "profile" which lists some characteristics about yourself and your living style. You will then be able to search for a person that might be a good fit for you. To explore the roommate matching function in MyHousing just complete the following steps.

Creating your Profile

Step 1: In MyHousing choose "Personal Preferences" from the left menu

Step 2: Update your personal preferences and click "Submit My Personal Preferences"

IMPORTANT NOTES

- The Advanced Roommate search is intended to be a tool. There is no guarantee that students will find a suitable match through the search function
- It is expected that students will contact a potential match themselves
- All profiles are listed as private until the student makes their profile public
