

Energy Facts

Did you know...

- ④ A hot water faucet that leaks one drop per second can add up to 165 gallons a month. That's more than one person uses in two weeks.
- ④ A crack as small as 1/16th of an inch around a window frame can let in as much cold air as leaving the window open three inches!
- ④ The United States only accounts for 5% of the world's population, but we use 25% of the world's oil.
- ④ Leaving a bathroom fan on for just 1 hour can deplete a houseful of heat or cold.
- ④ Leaving your fireplace damper open in the winter is the same as leaving a 48-inch window wide open.
