Enroll in a
Flexible Spending Account

CROSBY
Benefits People

By participating in a Flexible Spending Account, you will not pay federal, state or Social Security taxes on your elected amount. This generally means a 20% to 40% savings!

HOW A FLEXIBLE BENEFITS PLAN WORKS

A Flexible benefits plan is generally made up of three components:

1. Pre-Tax payroll deduction of your medical or dental insurance premiums (if you take your employer's plan) – *Automatic Benefit*. See your employer to opt-out.
2. Medical Flexible Spending Account – *Requires Enrollment*.
3. Dependent Care Flexible Spending Account – *Requires Enrollment*.

PLEASE NOTE: A Flexible Spending Account (FSA) may be identified by different names. Some examples include: Health Care FSA, Medical Reimbursement Plan, or Dependent Care Assistance Plan. Regardless of the name, if it is a Flexible Spending Account, it works as described below.

MEDICAL FSA

This account is used to pay for medical, dental and other eligible health related expenses, for you and your family in the upcoming plan year, that are not covered

under any insurance program. Eligible expenses typically include: deductibles, co-payments, prescription drugs, over-the-counter medications, medical, dental, and vision services and supplies. Check your records from last year or use the attached worksheet to estimate how much to put away for the next plan year.

DEPENDENT CARE FSA

This account offers the opportunity to pay for the first \$5,000 of annual employment-related dependent care (child or adult) expenses tax free. Some eligible expenses include: after-school care, summer day camp and nursery school, to name a few. If you contribute to this account, your employer will include your dependent care deduction on your Form W-2 for IRS reporting purposes only.

You may want to estimate possible tax savings with this account compared to the possible savings under the Federal Dependent Care Tax Credit. Consult your tax advisor if you have questions about your individual situation.

SOUNDS EASY BECAUSE IT IS!

Simply follow the enrollment instructions provided by your employer. You will need to determine how much you want to set aside to cover out-of-pocket medical, dental or dependent care expenses. Your employer will hold these payroll deducted funds. Then, follow the plan's reimbursement procedures. Claims must be accompanied by the bills and/or receipts for expenses you and your family incurred during the plan year. In most cases, claims may be submitted anytime during the plan year, or up to 3 months following the end of the plan year (for most employers).

PAYMENTS MADE DIRECTLY TO YOU

Crosby Benefit Systems will process your claim. Money for covered expenses will be withdrawn from either your Medical FSA or Dependent Care FSA and reimbursement will be issued to you either by direct deposit or check – your choice. (Payroll reimbursement is offered by some employers.) Account activity statements will be mailed to you and account information is available online at www.crosbybenefits.com.

OPTIONAL FEATURES

Some employers offer a Debit Card option – allowing use of a special card to pay for eligible expenses at the point of purchase. Another optional feature is the 2.5 month Grace Period. You will receive more information if any of these options are available to you.

SEE FOR YOURSELF

Use the worksheets below to estimate your expenses and determine how a Flexible Spending Account can save you money. For more information, refer to your Employer's Summary Plan Description. Specific reimbursement procedures and restriction information is located on Page 2 of the Reimbursement Request Forms at www.crosbybenefits.com.

worksheets

IMPORTANT! Plan carefully as you complete both of these worksheets. IRS regulations state that any unused funds remaining in the accounts after the run-out period (3 months for most employers) must be forfeited. Also, changes or termination of contributions during the plan year may only be made under specific conditions.

MEDICAL FLEXIBLE SPENDING ACCOUNT
