

GENDER & SEXUALITY STUDIES

Stonehill students in the Gender Studies major will learn the critical thinking and analytical skills necessary to enter the job market or pursue graduate study in a variety of fields, including Women's Studies, Sociology, English and History.

Gender & Sexuality Studies is an interdisciplinary field that draws from the social sciences and humanities in order to examine how and why gender matters in our lives and in our world. Unlike similar programs elsewhere, where institutional dogma might muzzle debate, Stonehill is welcoming to those who bring diverse opinions and viewpoints to the discussion.
